We're counting on you, Oklahoma!

Three ways to complete the 2020 Census starting April 1st:

Mail: Forms will be mailed to your home in mid-March.

Phone: Ideal for those with disabilities or language barriers.

Online: For the first time you’ll have the option of filling out the Census online.

Confidential: By law, all Census responses are private and cannot be shared with the FBI, CIA, ICE, IRS or any other agency that isn’t the Census Bureau.
When everyone counts, everyone wins!

Oklahoma stands to lose an estimated $1,675 per person, per year, in vital programs for our community that use Census data to determine funding. The Census impacts:

Community Services
Roads, hospitals, schools, emergency services and more.

Fair Representation
The number of representatives for your state and local government.

Civic Duty
The census is in the Constitution and dates back to 1790.

Redistricting
School districts and voting districts are based on the results of the Census.
