3. ASQ SCORE INTERPRETATION AND RECOMMENDATION FOR FOLLOW-UP: You must consider total area scores, overall responses, and other considerations, such as opportunities to practice skills, to determine appropriate follow-up.

If the child’s total score is in the □ area, it is above the cutoff, and the child’s development appears to be on schedule.
If the child’s total score is in the □ area, it is close to the cutoff. Provide learning activities and monitor.
If the child’s total score is in the □ area, it is below the cutoff. Further assessment with a professional may be needed.

4. FOLLOW-UP ACTION TAKEN: Check all that apply.
   _____ Provide activities and rescreen in _____ months.
   _____ Share results with primary health care provider.
   _____ Refer for (circle all that apply) hearing, vision, and/or behavioral screening.
   _____ Refer to primary health care provider or other community agency (specify reason): ______________________________.
   _____ Refer to early intervention/early childhood special education.
   _____ No further action taken at this time
   _____ Other (specify): ____________________________________________

5. OPTIONAL: Transfer item responses (Y = YES, S = SOMETIMES, N = NOT YET, X = response missing).
